## FOR SCHOOLS

### EMAIL NOTIFICATIONS FOR SCHOOLS

MailOmatic for Schools allows users of Blackbaud's Student Billing and Registrar's Office modules to automatically email tuition statements, projected statements, receipts, report cards, infraction reports, and schedules to the appropriate recipients. Save time and money (and the environment!) by doing away with the need to regularly print, fold, stuff, address, and post statements and other reports. Get paid sooner by delivering instantly and skipping postal delays.
