

# QUERYOMATIC

## CONTROL QUERIES ACROSS YOUR ORGANIZATION

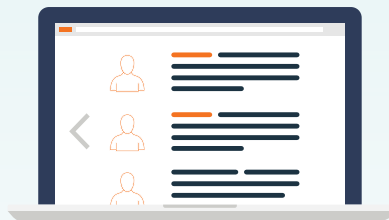

With QueryOmatic, Raiser's Edge users are able to gain total control over their queries across the organization so you can get a handle on which queries are being used, refresh them, and eliminate unused or outdated queries to keep everything better organized. QueryOmatic empowers organizations to clean up and easily manage their query table. Centralize and share queries for use by all users while also maintaining the ability to easily mark favorites that are specific to each individual user.

### USAGE STATISTICS

See which queries are created and where each is being used.

### GET ORGANIZED

Organize queries in Raiser's Edge® using folders, categories, and favorites.

### UPDATE EASILY

Refresh a batch of queries instantly, accurately and consistently.

### ADVANCED SEARCH

Easily find queries by partial word search.
